

Backflow Central is presenting a training session on Thursday 26th February from 4pm – 5.30pm, which is open to all plumbers and facility managers with an interest in backflow prevention testing and data base management.

The training will cover the processes involved in testing and tagging backflow prevention devices in the field using **BackFlowID - The QR2ID** tagging process and data management App.

BackFlowID is a secure and interactive asset tag that simplifies the requirements for registering each testable backflow prevention device.

For further information about **BackflowID** please find the below links:

The training will be undertaken by Peter McLennan from **Amtac Professional Services**, supported by **Backflow Central** staff.

Where: **Backflow Central, Unit 3/34 Cessna Drive, Caboolture**

When: **Thursday 26th February 2026**

Time: **4pm – 5.30pm**

Please RSVP your attendance to this session via email at
sales@hydromet.net.au

If you would also like to be set up on the **BackFlowID** system before the training session, please fill in the attached form and provide it with your RSVP. You can also download the form by scanning the QR code below.

Welcome to BackflowID

Please provide the following details so that we can set you up.

Company Details

Company Name: _____

Address: _____

Email: _____

Phone: _____

ABN: _____

Admin User Details

Name: _____

Email: _____

Phone: _____

Once registered, we will send a Verification email with a link allowing the admin user to login and set up a password.

The admin user will be able to add other users to the account. Please note, each user will need to have a separate email address as it forms part of their login details.
